

Match Every Line. Accelerate Every Payment.

AI-powered line-level PO matching for faster closes, fewer errors, and complete audit readiness.

You Can Achieve

80% reduction in reconciliation time	50% faster invoice approvals
100% line-level audit trail	250+ ERP & financial system connectors

Key Capabilities

- AI line-level extraction for quantities, descriptions, and pricing
- Multi-PO and partial-receipt matching with configurable tolerances
- Real-time discrepancy detection with color-coded alerts
- One-click exception resolution with notes and routing
- Automatic clearing of unbilled PO lines
- Complete line-level audit trail for compliance

Reduce Waste, Cost, and Risk with Intelligent PO Matching

Manual matching slows down finance. Yooz automates line-level extraction, matching, and exception handling so your team can work faster, stay compliant, and close with confidence.

Outcomes That Matter

- Shorter AP cycle times and faster month-end close
- Lower cost per invoice and fewer errors
- More accurate and timely vendor payments
- Improved discount capture and stronger working capital
- Stronger financial control with full traceability

Why Finance Teams Choose Yooz
